Details:
It is an exciting time to be a human resource management professional. New technologies, changing economic conditions, increasing workforce diversity and an emphasis on work-life balance are all contributing to a profound evolution in the nature of work and the challenges of managing contemporary organisations.

The Human Resource Management program is designed to increase the skills of both specialists and line managers and to meet the individual learning goals and career aspirations of each student. The program provides flexibility for the busy professional to complete the degree part-time, focusing on real-world work issues of personal relevance. Full-time students with little work experience will also have flexibility to complete the degree with applications that suit their own career goals.

All students complete the degree with a capstone project that allows consolidation of learning through application to the student's own workplace or other organisations. There are a variety of delivery modes including face-to-face weekly sessions, block delivery days, projects and online-supported delivery.

Career outcomes
The program is accredited with the Australian Human Resources Institute and as such prepares graduates for careers in generalist or specialist human resource professional roles. Generalist positions include human resources assistant, officer, manager or director and these may be located in corporate and private firms as well as public institutions. Specialist positions may include those involved with employment relations, recruitment and placement consulting, training and development specialists, management and executive coaching, as well as consulting careers.

International double masters program
If you would like to attain two internationally accredited masters in about the same time that it would normally take you to get one, you may consider our international double masters program. In an exchange study, you complete part of your degree at one of two leading institutions in Europe. Through cross-crediting of your course content, you are able to obtain the full degrees from both institutions – and you may be able to complete the double degree in the same time that it would take you to complete your QUT Master of Business program. For more information, visit international double degrees.

MGN443 TALENT MANAGEMENT

Australia's growing skills shortage and the prospect of an ageing workforce threaten the sustainability, productivity and growth of many industry sectors. These pressures have made talent management a strategic priority for many organisations. At its heart, talent management is simply a matter of anticipating the need for human capital and then developing a plan to meet it. However, the adaptive capacity of traditional workforce planning methods appears inadequate for today's uncertain business environment. This unit examines talent management as an alternative to traditional HR planning practices. It focuses on developing both a theoretical framework to guide talent management initiatives and applied skills (e.g. identification of critical roles, workforce forecasting and analysis) required to develop a talent management plan.
