Overview
The Master of Business (Professional Accounting) - Advanced is a two year full-time program, and like the Master of Business (Professional Accounting), is tailored to provide a formal accredited accounting qualification for graduates from non-accounting disciplines. The Advanced program offers the advantage of studying additional units in advanced topics.

If you are looking to change your career direction or enhance your career options, accountancy is a dynamic profession that will provide you with a sustainable, challenging and diverse range of career paths. Professional accountants are in increasing demand nationally and internationally by organisations throughout the commercial, public and not-for-profit sectors. Accountants can work in commerce and industry, in public or chartered accounting firms, in government organisations or as individual practitioners.

Accounting is central to every business activity, and combining an accounting qualification with an existing degree in another discipline opens up a broad spectrum of career opportunities in Australia and overseas.

Course design
Students must undertake 192 credit points consisting of 144 credit points of prescribed units and 48 credit points of approved elective units. Non-standardised course progression may result in unit selection difficulties. Students should contact the Brisbane Graduate School of Business for course progression advice.

Students seeking to exit early from the Master of Business course and graduate with a Graduate Diploma should lodge an application during the teaching period in which they expect to complete their studies. Completion of eight, 12 credit point units, where a minimum of six units are within the same discipline area, and as approved by the Subject Area Coordinator, is required for completion of the Graduate Diploma course.

Students who have completed an undergraduate degree in a Business related or other cognate degree directly related to the discipline area within the last five years, may be eligible for exemptions up to a maximum of 48 credit points. For further information on exemptions, please refer to the Master of Business Advanced overview.

Some applicants may require unit substitution where they have studied the equivalent of some introductory units in their undergraduate qualification. Choice of unit substitution is subject to approval by the Subject Area Coordinator.

**AYN520 INTEGRATED ISSUES IN PROFESSIONAL PRACTICE**
The Accountancy profession has repeatedly stressed the need for accounting university graduates to be ‘work ready’ and able to deal with and solve unstructured, multi-disciplined problems. This unit is a deliberate attempt to address this concern for students who enter the accounting profession through the Master of Business (Professional Accounting) - Advanced course and enables students in the Master of Business (Accounting) courses to further develop their team work, research and problem-solving skills. The unit simulates issues faced by a professional advisor/consultant by presenting students with simulated real world problems. The ‘real world’ focus of the unit ties strategically into QUT’s charter and provides our students with a potential advantage in seeking employment.
