Why choose this course?
The Faculty of Business offers a range of postgraduate research programs designed to develop skills to address a specific problem in the workplace or assist you to investigate an academic area of interest through researching and presenting findings to others in your field.

Overview
The Master of Business (Research) is a three semester or 18 month program (full-time equivalent), usually involving one semester of coursework in research skills development, followed by a two semester research program culminating in the submission of a thesis of approximately 40-50,000 words. It is a Faculty-level program, completion of which may allow entry to the PhD.

The objective of the program is to train students in research methodology techniques and critical evaluation appropriate to their field of study through a specified program of research under academic supervision.

In addition, you are trained in analysing both the literature and debate in the substantive areas of the thesis topic at an advanced level. It may also provide an entry point to a PhD program.

Overview
Students can pursue advanced studies within their discipline. Students will develop their capacity to conduct rigorous independent research, as well as undertaking advanced coursework that integrates conceptual and practical issues within their discipline.

Students can study within the following school areas: accountancy, advertising, banking and finance, economics, entrepreneurship and innovation, human resource management, international business, management, marketing and public relations.

Course design
For entry without an Honours degree, students must complete four approved coursework units (48 credit points) and a dissertation (96 credit points) as per the programs of study described under the individual majors.

For entry with an Honours degree students must complete a dissertation (96 credit points).

Facilities
Full-time students are provided with modern, well-appointed office space (which includes access to a desk, computer and telephone). There are break-out areas and meeting rooms where supervisors and industry partners can meet with their students. Discussion groups and small classes are also held in the meeting rooms. These premises offer new and continuing students a work environment conducive to study and progress and demonstrate a continuing commitment to the postgraduate program.

Supervision
You will receive individual supervision by a highly qualified and experienced academic staff member who will guide you through your advanced study.

Entry requirements (domestic and international students)
If applicants have an Honours degree (at level 2B or better) it must be relevant to the chosen discipline for the Master of Business (Research); or if applicants are entering from a pass degree, their undergraduate degree must include a major in an approved area, plus a grade point average of 5.5 or more on a 7 point scale; or applicants can present a case based on evidence of qualifications that demonstrates the applicants capacity to pursue the course of study.

In addition to assessing qualifications, the Faculty must also be satisfied that adequate supervision and resources are available to support the applicants proposed research.

Research Proposal - the application for admission to the Master of Business (Research) must include details of the proposed research project.
English language requirements (international students)
In addition to the above academic entry requirements, international students must meet the following English language proficiency levels for entry into the Faculty's postgraduate coursework courses:
- IELTS: overall score of 6.5 with no sub-band below 6.0;
- TOEFL: 575 (paper-based) or 230 (computerised) (if TOEFL permitted by visa requirements).

Mid-year entry students
Mid-year entry students should contact the Research Studies Office in the Faculty of Business on 3138 1320 or bus.research@qut.edu.au for enrolment advice and course progression details.

UNIT SYNOPSES

AYN433 RESEARCH TOPICS IN ACCOUNTING
This unit introduces Honours, Higher Degree Research and other Postgraduate students to a broad range of accounting literature. It is designed to explore various theories and research methodologies that are applied in accounting research through assigned weekly readings and assigned research tasks. The assigned readings include contemporary research in financial accounting, management accounting, auditing and corporate governance.

Prerequisites: AYN417 and AYN418
Credit points: 12
Contact hours: 3 per week
Campus: Gardens Point
Teaching period: 2010 SEM-1

BSN412 QUALITATIVE RESEARCH AND ANALYTICAL TECHNIQUES
This unit provides a detailed overview of qualitative research to support decision-making in business disciplines. The primary purpose of this unit is to develop a detailed understanding of the theoretical contexts in which field studies and qualitative research methods have developed and the techniques that define the approach. Students develop the ability to analyse, conduct, and evaluate qualitative research in discipline areas related to business. The unit provides a basic preparation for the development of a project, thesis or dissertation proposal based on the use of qualitative research.

BSN414 QUANTITATIVE RESEARCH METHODS
Quantitative Research Methods is a postgraduate unit designed to introduce students to a range of quantitative research methods and their application to different research questions and types of quantitative data. Throughout the unit, students will be exposed to a wide range of quantitative research issues including survey and index development,
factor analysis, multiple regression, experimental data collection and analysis, ANOVA and MANOVA, structural models, secondary data collection and analysis, and longitudinal data analysis. Each lecture will be conducted in computer laboratories to allow students the opportunity to develop their quantitative research skills using SPSS and AMOS with data provided by lecturers.

BSN600 THESIS
This is the major component of a research Masters and consists of a substantial study of an applied or theoretical issue. Students are expected to present a seminar each semester on their progress to date and, in the final semester, on the outcomes of their study. The thesis is expected to have a sound conceptual and theoretical foundation for the exploration of a significant communication topic using primary research data. The thesis report should be approximately 50000 words.
