The Graduate Diploma in Cardiac Ultrasound program offers studies for practising cardiac scientists. The course uses a combination of block classes of approximately one week’s duration in each semester, web-based modules and clinical practice modules.

**Minimum English requirements**
Students must meet the English proficiency requirements.

**Professional recognition**
This course is accredited with the Australasian Sonographer Accreditation Registry.

**Scholarships**
You can apply for scholarships to help you with study and living costs.
- [Equity scholarships scheme](#)

**Course requirements**
There are requirements that you will need to meet as a student in this course. You will need to identify these requirements and ensure you allow sufficient time to meet them.

The study mode of this course is external and students access the majority of course materials online. Therefore, all students will require computer access with sufficient internet speed to engage with the online lectures and tutorials.

---

Tony Forshaw, QUT lecturer

**Real knowledge**

‘All the lecturers and teaching staff are senior sonographers in their clinical practice and experts in their field. We also have an array of specialists who come in during the on-campus blocks to share their knowledge with the students as well.’
