Admission into the course is dependent on the availability of supervisors with expertise appropriate to the individual topic.

Overview
This program gives you an opportunity to research a topic of your choice, culminating in submission of a thesis. Under the guidance of your supervisor(s), you will conduct your research within the Faculty's Centre for Learning Innovation. As well as equipping you with the research and analytical skills to make a valuable contribution to knowledge, the Master of Education (Research) puts you in a position to market yourself as an expert in your field. The course is a fitting preparation for the doctoral programs offered by the Faculty: the Doctor of Philosophy and the Doctor of Education.

Course Structure
The course comprises four stages: preparation, confirmation of candidature, implementation and submission of a thesis of up to 40,000 words.

(i) Preparation stage: you undertake two research methodology units - Professional Applications of Research and Conducting Innovative Educational Research. Exemption may be granted for the methodology units if you can demonstrate that you have already completed equivalent studies or have relevant research experience. During this stage, you will determine the research methods to be used in your thesis and begin work on your literature review.

(ii) Confirmation of candidature stage: you present and justify your research proposal at a seminar attended by academic staff and your peers. Your confirmation document includes your research design and your draft literature review.

(iii) Implementation stage: you execute your research proper, collecting your data and analysing the results.

(iv) Submission stage: in the final stage of your Master of Education (Research) journey, you finish writing your thesis and present it to a review panel for approval at a final oral seminar open to the public. Once aproved, your thesis is ready to be submitted for examination.

Application Procedures
As part of your application for the course, you are required to submit a short research proposal. It is recommended that you consult the course coordinator or prospective supervisors for their assistance

Course Requirements
University and Faculty rules governing credit, supervision, confirmation of candidature and examination of thesis apply to the Master of Education (Research).
