Study Areas for Domestic Students
Career Development:
The field of career development has undergone significant change with the attendant demand for accountability and accreditation. Successful completion of this study area will enable you to work as a career counsellor, career teacher or career coach. The Career Development study area is recognised by Career Industry Council of Australia (CICA). This endorsement has been granted for a five year period until 2014.

Early Childhood Teaching:
This study area will enable you to develop in-depth theoretical and practical knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services. This is a dedicated study area which enables qualified teachers upon completion, to become early childhood specialists, both in schools and as leaders in child care settings. Furthermore, the Early Childhood Teaching study area is recognised as a specialist early childhood qualification with Queensland Department of Communities and the Creche and Kindergarten Association (C&K).

Early Years:
This study area has significant importance in current education policies, nationally and internationally. Early childhood research has consistently provided evidence that the experiences and environments of children in the early years are important to strong social-emotional development and positive learning outcomes through school and into adulthood. Thus, the early years have consequences for children’s health and well-being across their life course. Because of increased recognition of the importance of the early years to later outcomes, there is increased demand for highly trained professionals who can support the diverse learning needs of young children. It should enable you to develop your knowledge and understanding of current theory and research that will inform effective practice with young children and their families in early years programs and services.

Education Research: Theory and Practice:
This study area will encourage and enhance critical thinking in a specific area of education of interest to you and provide the research grounding in a focussed area to give you the option to progress into higher degree study. While you may wish to pursue this area as an end in itself, you may wish to move to specific research projects either for awards within the higher education sector or as part of your work within specific organisations.

Generic Program:
Students can choose a generic Masters which does not provide a study area and consists of two (2) core units and six (6) option units. This program can be tailored to suit your individual study needs and interests.

Higher Education (from semester 2, 2011 - only available to cohorts):
Teaching and learning are core functions of all higher education institutions. The need to ensure quality in teaching and learning within the higher education sector is
increasingly a focus of a number of initiatives. This study area develops and extends your skills in teaching, explores teaching and learning theories and the strategies, models and concepts that are relevant to teaching and learning in a higher education setting, and develops the capacity to critically reflect on professional practice. Professional development activities undertaken by staff may be recognised for advanced standing into the study area. You will need to complete an Advanced Standing application form and document appropriately for consideration by the Faculty.

Information Communication Technology (ICT):
This study area focuses on the different roles that technology, particularly contemporary digital technology, plays across all education sectors. The study area introduces major frameworks for, and debates around; understanding these roles, but the main emphasis is on practical application. It is suitable for any teacher or administrator who seeks to deliberately employ technology within educational contexts.

Information-Learning Connections:
This study area enables you to extend your conceptual understandings and professional practices for learning and teaching in rapidly changing information-rich learning environments. It will provide an opportunity for your career development across Education, Librarianship, and Information Services. Potential students include: experienced teachers and teacher-librarians; academics; instructional designers; academic developers; learning support specialists; academic, public and corporate librarians; information professionals; workplace educators.

Leadership and Management:
This study area focuses on building and enhancing leadership capacity in aspiring and existing leaders. The units provide leaders with requisite knowledge and understanding of central concepts connected to leading others, leading change processes, understanding and interpreting policy, and strategic managerial skills required in planning, monitoring and evaluating organisational systems.

School Guidance and Counselling (option A or B):
This study area is suitable for guidance officers seeking to advance their knowledge or qualified teachers seeking a career change. The School Guidance and Counselling study area is recognised by Education Queensland, Catholic Education, and Independent Schools as a Guidance Officer qualification in Queensland schools. School Guidance and Counselling ‘Option A’ will enable you to be eligible for employment from P-12. ‘Option B’ is mainly for guidance and counselling in a secondary school as it also meets the Career Industry Council of Australia (CICA) professional standards. This endorsement has been granted for a five year period until 2014. PLEASE NOTE: This qualification is only recognised by education employing authorities in Queensland.

Studies in Literacy:
The study area Studies in Literacy provides opportunities for participants to engage with current and historical issues and debates and specific areas of interest within the broad domain of literacy. The core units have been designed to meet the learning needs of teachers, educators and allied professionals (e.g. development officers) who have a strong interest in the literacy development of their students and clients as well as the contributions of political, professional, private and community contexts to understandings of literacy and literacy education. Current issues such as moves to standardise literacy curriculum and assessment at a time when literacy practices are changing in everyday life will also be examined.

Teaching English as a Foreign Language (TEFL):

Teacher-Librarianship:
This is a specialist degree that prepares teachers for professional leadership as teacher-librarians in primary and secondary schools. You may also be eligible for employment in other sectors of library and information work. To practise as a Teacher-Librarian in Australian schools, graduates also need approved teaching qualifications. The study area is recognised by the Australian Library and Information Association (ALIA) for the six year period, January 2006-December 2011. Graduates are eligible for associate (professional) membership of ALIA and may seek employment in a wide range of library and information contexts, including school libraries. The Master of Education (Teacher-Librarianship) maintains close links with the Australian School Library Association (ASLA).

Teaching for Diversity: Disabilities and Learning Difficulties:
While the understanding and application of learning theory is essential to the teaching of all students, most students with learning difficulties and disabilities require specialised instructional approaches in order to maximise their potential and achieve success. In order to address the learning, social, and behavioural needs of these students, teachers and other professionals require an understanding of theoretical models, socio-cognitive processes, current research and best practices related to supporting students with learning difficulties and disabilities. In addition, well-developed skills in consultation, collaborative problem-solving, and reporting are required. It will appeal to teachers, special education support teachers and allied professionals (e.g., Guidance Officers, social workers, and health professionals) who assist children, adolescents and adults with learning, social and behavioural challenges.

Teaching English as a Foreign Language (TEFL):
TEFL is a coursework award designed to meet the needs of students seeking a course which is specifically focused on teaching English as a foreign Language.

Teaching English as a Second Language (TESOL): TESOL is a coursework award that provides students with theoretical knowledge and practical skills required to gain employment in the field of teaching English to speakers of other languages.

Vocational Education and Training (not offered from 2011 - continuing students only): In recent years, there has been considerable convergence of vocational education and training and “academic education” within the Australian community. This study area will equip individuals with the understandings and skills necessary to implement and manage Vocational Education and Training initiatives within a range of settings. It aims to develop the skills and knowledge of participants as critically reflective practitioners with a commitment and confidence to lead vocational education in secondary and post-secondary settings.

**Course Rules**

UNIT DELIVERIES:
Please ensure you select the correct teaching period, class and location code for all units you are enrolled in.

EXTERNAL: The unit will be conducted through the QUT Blackboard site. Regular access to a suitable computer and internet access is imperative.

INTERNAL: The unit requires regular attendance at classes on Kelvin Grove campus during semester. At the first scheduled class time, lecturers will negotiate with students a schedule for regular contact.

BLOCK: The unit is offered in a block of lectures during the January or June/July vacation with attendance being over a number of days, normally from 9.00am to 4.00pm, Monday to Friday of a particular week. Assessment is completed during the remainder of the semester via the online 'Blackboard' website.

OPTION UNITS:
As part of most of your study areas, or a 'Generic' Masters degree, you are able to complete a number of option units which can be selected from any units listed under any of the study areas in ED79, with the exception of field study or practicum units.

MINIMUM AND MAXIMUM UNIT ENROLMENT:
Domestic students may enrol in a minimum of one (1) unit per semester. If you do not enrol in at least one (1) unit, you will need to apply for a leave of absence. If you wish to enrol in more than four (4) units per semester, you will need
LEAVE OF ABSENCE:
In order to take time off without study, you will need to complete an online Leave of Absence Form - L Form Online. A link to this form can be found on the Student Services / Forms web page. Students are permitted to take up to 12 months leave without ‘Special Circumstances’. If you wish to take more time off, you will need to provide documents proving special circumstances (doctor’s certificates etc.) You have 4 years to complete the course.

BLUE CARD:
Students in Early Childhood Teaching, School Guidance and Counselling, and Teacher-Librarianship may be required to hold a current blue card before they can undertake the practicum in a child care centre, early years setting, library, or some schools, even if they are registered teachers. Depending on where you intend to undertake your practicum, you may need to apply for a blue card as soon as you are accepted into the program to allow sufficient time (up to 12 weeks) for it to be issued. Contact your study area coordinator for advice and visit student.qut.edu.au/studying/jobs-and-work-experience/work-experience-and-placements/blue-cards

ADVANCED STANDING (Credit):
You can apply for Advanced Standing from prior study at an equivalent level to Masters study. Undergraduate study or 4th year study (Honours or Graduate Diploma) are not generally considered at Masters level. Advanced Standing is assessed on ‘currency’. Your prior study will need to be assessed as ‘current’ in order to be applied to your Masters Degree. You can also apply for Advanced Standing based on work or industry experience. This is less likely to be approved as normal teaching experience will not lead to academic credit. If you are responsible for an original academic work, such as creating a course and/or curriculum, or have published any original research etc. then you may qualify for credit for work or industry experience. Please complete an ‘AS Form’. A link to this form can be found on the Student Services / Forms web page.

CHANGE OF STUDY AREA:
Students must submit a ‘CM Form’ to request a change of study area. A link to this form can be found on the Student Services / Forms web page.

EARLY EXIT - ED61 GRADUATE CERTIFICATE IN EDUCATION:
Students wishing to exit the course early with ED61 Graduate Certificate in Education should apply in the semester they expect to exit, using an ‘SRX Form’. A link to this form can be found on the Student Services / Forms web page. Students who take this option will have to cancel their enrolment in the Master of Education ED79 once the SRX form has been approved (via QUT Virtual / eStudent).

The purpose of SPP and the Professional Portfolio is to provide students with opportunities to engage in authentic, real-world learning that will enable them to reflect on current professional practices, apply critical thinking and problem-solving, and make connections between theory and practice.
