Ash Jayawardena, Sri Lanka (Diploma in Engineering)

Real graduate

I would say that QUTIC provides the best pathway to university. Most international students are not familiar with Australian academic requirements as they come from different learning environments back home. The diploma pathway provided me with that extra support in my studies in terms of gaining knowledge, understanding and guidance. It has helped me to settle in well and excel in my studies at QUT.
Diploma in Engineering

You will learn through university style lectures, tutorials and workshops with a focus on the development of independent learning skills. Smaller class sizes mean you get more individual attention from your teachers.

Subject prerequisites
- Maths B

You must have achieved this study at a level comparable to Australian Year 12 or in recognised post-secondary studies.

Minimum English requirements
Students must meet the English proficiency requirements.

Honours pathway
To progress into QUT’s Bachelor of Engineering (Honours) you will need to meet the conditions listed in your offer letter, including:
- successfully complete your Diploma with a minimum grade point average (GPA) of at least 4.0 on a 7-point scale

To find more information regarding the progression requirements, refer to the ‘Requirements’ tab for your chosen Bachelor degree, and select ‘Australia’ from the country list.

Advanced Standing
Bachelor of Engineering (Honours)
After successful completion of Diploma in Engineering, you are eligible for 96 credit points (one year) of advanced standing towards Bachelor of Engineering (Honours) (EN01).

Remaining duration (full-time) in your Bachelor of Engineering (Honours) will be 3 years / 6 semesters in any of the majors.

Other degrees
You are eligible for 48 credit points (one semester) of advanced standing

It will take 3 years / 6 semesters to complete:
- Bachelor of Property Economics (UD05)
- Bachelor of Science (ST01)
- Bachelor of Mathematics (MS01)

It will take 4 years / 8 semesters to complete:
- Bachelor of Urban Development (Honours) (UD01)

Professional recognition
The Diploma in Engineering is designed for students to articulate into the second year of the Bachelor of Engineering (Honours) award, which is fully accredited by Engineers Australia.

Students who graduate from the Diploma will receive the Diploma award. As the Diploma program is not accredited by Engineers Australia, future employment would be in a para-professional support role. To practice as a professional engineer students will need to complete the Bachelor of Engineering (Honours).
