Master of Teaching (Primary)

A future-focused philosophy ensures you’ll have the key capabilities to be an innovative teacher in the primary classrooms of today and tomorrow. Your professional identity will also be developed during the course and as a graduate you’ll be prepared to manage classrooms, key relationships, and your own personal wellbeing.

**Why choose this course?**
Transform your prior studies and experience into a teaching qualification in just two years. If you have a bachelor degree in a field other than education this course can offer a pathway to a rewarding career in teaching.

Bring your passion for knowledge and your work and life experience to the teaching profession. Curriculum studies will prepare you to use your existing knowledge to develop and plan effective teaching strategies to respond to the diverse needs of your students. Key capabilities in classroom and behaviour management will be developed before you undertake your first Professional Experience in a school setting.

You will engage in up-to-date and relevant learning experiences designed to prepare you for your new career. You will have opportunities to develop and reflect on your own professional identity and explore the range of possible career directions available to you.
