**AMB202 INTEGRATED MARKETING COMMUNICATION**

In past decades many organisations separated the different forms of marketing communication that convey their corporate and marketing messages. They developed separate plans for their advertising, public relations, direct marketing, personal selling and sales promotion with separate goals, objectives, strategies and budgets. Today many companies recognise the concept of integrated marketing communication which integrates these different functions along with other aspects of the marketing mix that communicate with stakeholders and customers. Integrated marketing communication requires a “total” approach to planning marketing communication programs and coordinating communication strategies in support of overall brand and product/service marketing objectives.

issues in advertising management practice and asking, "What should be done?". Advertising Management is an
issues-based unit, which uses case analysis to foster critical thinking and problem solving. It encourages students to
understand and take ownership of the advertising management process and, in doing so, build a better advertising
industry.

copywriting, media and advertising management. It explores the digital environment, interrogates digital platforms and
integrates critical research, planning and an understanding of analytics into digital campaign development. This digital

develop a digital portfolio in their chosen vocational area.

executed as creative and media ideas and evaluated through ongoing benchmarks.

**Prerequisites:** AMB320 and AMB330  
**Equivalents:** AMB321, AMX339  
**Credit points:** 12  
**Campus:** Gardens Point  
**Teaching period:** 2013 SEM-1 and 2013 SEM-2
