Overview
The Master of Justice (Intelligence) by Coursework provides postgraduate education in Intelligence. This course extends the scope of areas presented in the Graduate Certificate in Intelligence program to provide a complete foundation for intelligence professionals with careers in defence, policing, government and corporate organisations.

Entry Requirements
Entry requirements for the Master of Justice (Intelligence):
A relevant and approved three-year undergraduate degree from a recognised tertiary institution or a combination of extensive and appropriate professional employment and training that the Course Coordinator deems to be appropriate.

Course Requirements
The Master of Justice (Intelligence) consists of either (8) units totalling 96 credit points. Students must complete:
- Two (2) generic core units (24 credit points);
- Four (4) specialist Intelligence units (48 credit points) plus;
- Two (2) Elective units (24 credit points).

Full-time program
Students wishing to undertake this program full-time have the opportunity to fast-track their studies by undertaking 4 units per semester. The structure of the course, and the way in which the units are offered across 2 semesters, allows students to complete a Master of Justice in 1 year with the standard full-time load.

Unit Offerings
Units listed in the Course Structure may not necessarily be offered each year or each semester. Prospective students or those students wishing to undertake a full-time program are advised to contact the School of Justice for unit availability by phoning (07) 31387132 or email - lawjs_enquiries@qut.edu.au.

Notes for International Students
International students may study this course in the External On-line mode in their home country. This course is not available to full-time international students wishing to study this course in Australia as it is not available as an Internal offering.

Advanced Standing
The Australian Army and QUT have entered into a Memorandum of Understanding (MOU) to offered Advanced Standing to students who have completed intelligence courses offered through the Army. Also, applicants who have completed Analyst Notebook may be eligible for Advanced Standing towards JSN106 Analytical Methods of Intelligence. Students who can provide evidence of successfully completing Analyst Notebook, or demonstrate a high level of competency in the program can apply for Advanced Standing with the relevant documentation. The maximum number of units which can be credited to the course is four (4).

TRANSITIONAL ARRANGEMENTS FOR CONTINUING STUDENTS
Continuing students (ie: students enrolled prior to 2009) should contact the School of Justice office to discuss transitional arrangements to allow for course completion. A unit incompatibility list can also be obtained from School of Justice office, email: lawjs_enquiries@qut.edu.au

UNIT SYNOPSES

JSN101 JUSTICE AND HUMAN RIGHTS
Arguments concerning perceived problems of justice and injustice usually reveal conflicting ideas about what justice actually means both theoretically, and in practice. Justice and human rights go hand in hand both theoretically and in the practice of law enforcement and other criminal justice professions. You will require a sophisticated level of understanding of theories of justice and human rights in a social and criminal context if you are to effectively apply in practice the content knowledge you have acquired in the course of your post graduate study.

JSN102 APPLIED DATA ANALYSIS TECHNIQUES FOR CRIMINOLOGY AND CRIMINAL JUSTICE

The content of this Unit is based on an assumption that students have a solid knowledge of research methodologies. This includes: an understanding of qualitative and quantitative research paradigms; principles of sampling; and various methods of collecting data. This Unit will build on that knowledge and provide students with an understanding of the techniques that can be used to analyse both quantitative and qualitative data. These skills are important for those working in criminal justice and related fields in order for them to not only process research data but also to make sense of research results published in reports, journals and other publications.
