Master of Justice (Intelligence/Criminology) (JS54)

Year offered: 2011
Admissions: Yes
CRICOS code: External study only
Course duration (full-time): 1.5 years (may be undertaken in one year)
Course duration (part-time): 3 years (may be undertaken in two years)
Course duration (external): 3 years (may be undertaken in two years)
Domestic Fees (indicative): 2011: Full fee tuition $7,375 (indicative) per semester FULL TIME (4 units)
International Fees (indicative): 2011: $10,750 (indicative) per semester
Domestic Entry: February and July
International Entry: February and July
Total credit points: 144
Standard credit points per full-time semester: 48
Standard credit points per part-time semester: 24
Course coordinator: Dr Christine Bond
Discipline coordinator: Dr Christine Bond
Campus: External

Why choose this course?
Why choose a Master of Justice (Criminology/Intelligence) offered by the School of Justice -
• External or distance education mode of delivery with no restrictions on location
• Courses that provide the opportunity for students to formalise their in-house professional career courses and work experience through recognition of prior learning
• Courses that provide the opportunity for students to apply work related issues to their studies
• Courses that articulate to higher degrees
• Courses that provide graduates with a high probability of employment because they possess well developed and comprehensive knowledge of the Australian legal, governance and justice framework and principles; a high level of understanding of comparative and international systems and human rights; and a sophisticated appreciation of the ethical frameworks in which both the Australian and International legal and justice systems operate.
• The use of integrated information and communications technology using discussion forums for enhanced learning.

Course structure
The Master of Justice (Criminology) provides advanced postgraduate education in criminology and a complete foundation for justice professionals with careers in corrections, policing, government and corporate organisations.

The Master of Justice (Intelligence) provides advanced postgraduate education in intelligence and investigation.

The course extends the scope of areas presented in the graduate certificate program to provide a complete foundation for intelligence and investigation professionals with careers in defence, policing, government and corporate organisations.

Convenience
This course offers the flexibility of external/on-line learning with study materials available through Blackboard. This aspect of the course delivery is important to those students who may be deployed at short notice and wish to continue their studies at any location without having to withdraw or defer studies.

Students who choose the Intelligence study area should be aware that there is one core unit that is only offered internally. The unit, JSN106 Analytical Methods of Intelligence is a practical software component of the course and is not available as distance or external. It is offered as a one week intensive on-campus unit during the semester (ie Monday to Friday 9am to 5pm). Refer to ‘Advanced Standing’ notes below. This unit is not a requirement for students who choose the Criminology study area.

Overview
The Master of Justice (Intelligence/Criminology) by Coursework provides postgraduate education in the study areas of Intelligence and Criminology. This course extends the scope of areas presented in the Graduate Certificate program to provide a complete foundation for intelligence and criminology professionals.

Entry Requirements - Domestic and International
An appropriate undergraduate degree or equivalent with a minimum grade point average (GPA) of 4.0 (on a 7 point scale). Applicants who meet the undergraduate requirement and who have relevant professional experience may be eligible for advanced standing.

OR
A graduate certificate in an appropriate field with a minimum grade point average (GPA) of 4.0 (on a 7 point scale).

Notes for International Students
International students may study this course in the External On-line mode in their home country. This course is not available to full-time international students wishing to study this course in Australia as it is not available as an Internal offering.
English Language Requirements
IELTS 6.5 (with no lower than 6 for any one band)

Course Requirements
The course consists of 144 credit points of study comprising of 24 credit points of core units, 72 credit points from a study area and 48 credit points of option units. Advanced standing of 48 credit points (replacing the option units) may be available.

Advanced Standing Based on Previous Study
Students with a relevant undergraduate degree and professional experience may be eligible for 48 credit points of advanced standing.

Full time program
Students wishing to undertake this program as full-time degree have the opportunity to fast-track their studies by undertaking 4 units per semester. The structure of the course, and the way in which the units are offered across 2 semesters, allows students with advanced standing to complete a Master of Justice in 1 year with the standard full-time load.

Early exit options
Students may be eligible to exit with a Graduate Certificate.

Pathways to further
This course articulates with the Master of Justice (Advanced) and the Doctor of Juridical Science (SJD).

Unit Offerings
Units listed in the Course Structure may not necessarily be offered each year or each semester. Prospective students are advised to contact the School of Justice for unit availability by phoning (07) 31387132 or email - lawjs_enquiries@qut.edu.au.

Articulation to Master of Justice (Advanced)
Students who have successfully completed the Master of Justice with a GPA of 4.0 may be eligible to articulate to the Master of Justice (Advanced).

Career outcomes
Graduates of this program gain the skills and knowledge to be better prepared or gain enhanced knowledge in their current roles, for example Intelligence Analysts, Security and Investigators, Australian Defence Force, Correctional Services and Federal and State Police Services.

Year 1 Semester 1
JSN101 Justice and Human Rights
JSN102 Applied Data Analysis Techniques For Criminology and Criminal Justice
Study Area A Units (Criminology or Intelligence)
Study Area A Units (Criminology or Intelligence)

Year 1 Semester 2
Study Area A Units (Criminology or Intelligence)
Study Area A Units (Criminology or Intelligence)
Study Area A Units (Criminology or Intelligence)
Study Area A Units (Criminology or Intelligence)

Year 2 Semester 1
Option Unit
Option Unit
Option Unit
Option Unit
Students who meet the entry requirements for the Master of Justice may be entitled to 48cps of advanced standing which will replace the four option units.

Note:
See individual entries for JS54 Master of Justice (Criminology) and JS54 Master of Justice (Intelligence) for customised course structures.

Unit List

Course Requirements
This course consists of two core units, six Study Area A units in Criminology or Intelligence, four option units and four thesis units.

Core Units
JSN101 Justice and Human Rights
JSN102 Applied Data Analysis Techniques For
Criminology and Criminal Justice

Choose six (6) units from the following:

Crime and Misconduct
LWN1792

Combating International Corruption
JSN125

Official Corruption and Ethics
Investigative Analytical Tools
JSN106

Analytical Methods of Intelligence
JSN124

Criminal Database Analysis
Security Risk Management
JSN126

Security Risk Management
JSN116

Elective unit approved by the Course Coordinator

**Option Units**

Any four postgraduate units

*Students who meet the entry requirements may be eligible for advanced standing of 48cps which will replace the option units.

Potential Careers:

Customs Officer, Investigator, Police Officer (Australian Federal), Police Officer (State).

**UNIT SYNOPSES**

**JSN101 JUSTICE AND HUMAN RIGHTS**
Arguments concerning perceived problems of justice and injustice usually reveal conflicting ideas about what justice actually means both theoretically, and in practice. Justice and human rights go hand in hand both theoretically and in the practice of law enforcement and other criminal justice professions. You will require a sophisticated level of understanding of theories of justice and human rights in a social and criminal context if you are to effectively apply in practice the content knowledge you have acquired in the course of your post graduate study.

Equivalents: JSN001, JSP001, JSB411, LWN040

Credit points: 12
Campus: Internet and External
Teaching period: 2011 SEM-1

**JSN102 APPLIED DATA ANALYSIS TECHNIQUES FOR CRIMINOLOGY AND CRIMINAL JUSTICE**
The content of this Unit is based on an assumption that students have a solid knowledge of research methodologies. This includes: an understanding of qualitative and quantitative research paradigms; principles of sampling; and various methods of collecting data. This Unit will build on that knowledge and provide students with an understanding of the techniques that can be used to analyse both quantitative and qualitative data. These skills are important for those working in criminal justice and related fields in order for them to not only process research data but also to make sense of research results published in reports, journals and other publications.

Equivalents: JSN018, JSN163, JSP163, JSP063

Credit points: 12
Campus: Internet and External
Teaching period: 2011 SEM-1

**JSN104 TRANSNATIONAL AND ORGANISED CRIME**

Antirequisites: JSB982

Credit points: 12
Campus: Internet and External

**JSN105 WHITE COLLAR CRIME: INVESTIGATION AND PREVENTION**

White-collar crime is becoming more common in Australian society. Street crime still exists but there are a larger...
number of people in a position to participate in white collar crime and new opportunities are presented by a more corporatised and technological society. Greater resources are being applied to detect these crimes within police services, and new agencies, such as the Australian Securities and Investment Commission, are being developed to specialise in the oversight and prosecution of offenders. The circumstances in which the crimes occur and the technological considerations raise unique questions for investigation and prevention. The background to the nature of white-collar crime is provided in JSB105 White Collar Crime - Investigations and Prevention. This unit assumes a familiarity with the nature of the offences and will provide the student with an outline of techniques for prevention and detection of white collar crime.

**Antirequisites:** JSB983  **Credit points:** 12  **Campus:** Internet and External

**JSN106 ANALYTICAL METHODS OF INTELLIGENCE**

Over the last decade or so selected technological advances have enhanced the ability of policing and intelligence agencies to collate and analyse large amounts of data and then display the links and associations in a visual manner. By doing this the respective gaps and areas requiring additional input of information become evident, thus enhancing the gathering of information and promoting the success of the investigation. As the use of the available computer software is the contemporary professional standard it is incumbent on individuals employed within this environment to utilise the data analysis software.

**Antirequisites:** JSB376  **Credit points:** 12  **Contact hours:** Intensive block  **Campus:** Gardens Point  **Teaching period:** 2011 SEM-2

**JSN108 NATIONAL SECURITY AND INTELLIGENCE**

The rationale of this unit is for you to be able to gain insight on how security is conceptualised from a theoretical and applied perspective. This knowledge of the variety of ways, in which security is defined and sought, will enable a critical analysis of what security means for Australia. In addition, this unit will explore the contemporary issues that intelligence gathering operations are currently engaged with at the regional and international level. Security ostensibly is a multilayered task, which requires the domestic, regional and international conceptualisation of threats and strategic responses.

This unit will profile how security prioritization occurs within nation states and how security is conceptualised today in relation to both traditional and non-traditional security threats.

**Equivalents:** JSN164, JSP164, JSP065  **Credit points:** 12  **Campus:** Internet and External  **Teaching period:** 2011 SEM-2

**JSN109 INTELLIGENCE PRACTICE 1**

Intelligence professionals provide support to government and the private sector. Intelligence analysts are increasingly taking a leading role in investigations by providing more information to provide an informed decision for team leaders of criminal investigation teams. Within the Intelligence community they offer an advantage to managers, through the provision of accurate and timely advice. This unit presents the essentials of the intelligence system, the intelligence process and creative problem solving skills within the intelligence environment.

Intelligence analysts are provided with methodologies and tools for their profession. Intelligence work requires proficiency in thinking strategies and skills, effective interpersonal skills, teamwork and application of intelligence process methodologies in a variety of contexts.

**Equivalents:** JSN161, JSP161, JSP061  **Credit points:** 12  **Campus:** Internet and External  **Teaching period:** 2011 SEM-1

**JSN110 INTELLIGENCE PRACTICE 2**

There are two perspectives to be borne in mind: the management of intelligence within organisations; and, intelligence management. The unit examines organisational structures against proven principles. It acknowledges the importance of people, and examines the specific needs of personnel systems in an intelligence environment. Finally, it looks at the processes to plan and conduct efficient operations.

The unit considers the management of intelligence organisations, personnel and operations. It recognises the need for managers to be attuned to the context and environment in which they are operating. The unit examines organisational structures against proven principles. The subject concentrates on applying established principles and procedures to the unique needs of intelligence organisations.

**Equivalents:** JSN162, JSP162, JSP067  **Credit points:** 12  **Campus:** Internet and External  **Teaching period:** 2011 SEM-2

**JSN111 TERRORISM AND POLITICAL VIOLENCE**

In this unit you will be taught the defining characteristics of terrorism and why it is described as both a political and criminal act. During the unit you will be exposed to different types of terror tactics and will investigate particular terror groups that are currently operating on a national, regional and international scale. This unit will explore the characteristics of terrorist organizations and examine how recent developments in technology and finance allow them to flourish. The unit will provide students with the opportunity to critically engage with counter-terror tactics, assess whether the tactics engage with the terror threat as
a political or criminal one, and evaluate their effectiveness. Antirequisites: JSB985 Credit points: 12 Campus: Internet and External Teaching period: 2011 SEM-2

JSN112 CRIME PREVENTION
A key criticism of traditional criminal justice responses to crime involving police, courts and imprisonment is that they are mainly “down stream” responses, reacting after crime has occurred. This has lead criminal justice practitioners to develop schemes that identify and address causes of offending. Such approaches emphasise “up stream” responses that aim to prevent crime before they come “down stream” problems requiring responses by the crime justice system. Various methods of crime prevention have been developed with state and local agencies adopting different techniques. A key aim of crime prevention is to instil an evidence-based approach that emphasises problem solving and analysis and systemic planning. Given the importance being placed upon prevention by the private and public sector it is important for you to understand the trends described above and develop skills relevant to the development, implementation and evaluation of crime prevention strategies. Antirequisites: JSB374, JSB333, JSB044 Credit points: 12 Campus: Internet and External Teaching period: 2011 SEM-2

JSN113 THEORIES OF CRIME
The main aim of this unit is to introduce you to the study of theoretical criminology. This unit will address the social context of crime but is not exclusively sociological. The study of criminology is essentially multi-disciplinary and this is reflected in the diversity of theoretical approaches. Theory is typically offered as distinct from methods of research, however, together they provide the foundation for policy and practice. The unit provides an analytical framework in order to critically assess the epistemological claims and justifications found in criminological theory. Criminological theories are viewed embedded governmental practices aimed at ensuring the regulation and control of particular ‘problem populations’. Antirequisites: JSB272, JSB231, JSB018 Credit points: 12 Campus: Internet and External Teaching period: 2011 SEM-1

JSN114 CYBERCRIME
Antirequisites: JSB974 Credit points: 12 Campus: Internet and External

JSN116 INDEPENDENT STUDY
In the course of their study, Justice students may discover an area that is of particular interest to them, or which has specific relevance to their intended professional orientation. This unit gives you the opportunity to extend aspects of your coursework or professional interests in more depth as well as to continue the process of refining and developing research skills. Equivalents: JSN006 Credit points: 12 Campus: Internet and External Teaching period: 2011 SEM-1

JSN117 INDEPENDENT STUDY
In the course of their study, Justice students may discover an area that is of particular interest to them, or which has specific relevance to their intended professional orientation. This unit gives you the opportunity to extend aspects of your coursework or professional interests in more depth as well as to continue the process of refining and developing research skills. Equivalents: JSN007 Credit points: 12 Campus: Internet and External Teaching period: 2011 SEM-2

JSN124 CRIMINAL DATABASE ANALYSIS
As a consequence of the increasing reliance on computer technology within the investigative and intelligence communities within Australia it is recognised that students should gain a working knowledge of the design and development of criminal databases as well as the ability to analyse the data so contained. Credit points: 12 Campus: External Teaching period: 2011 SEM-1

JSN125 OFFICIAL CORRUPTION AND ETHICS
Until recently, technological advancements and increased economic rationalism had forced public and private organisations into a managerial mode of governance that focussed on outcomes at the expense of process. The managerial mode created major gaps in public accountability and responsibility, leading to increased risk of corruption, fraud and scandal. To address these problems, current government policy has begun to focus more and more on governance and accountability and their associated processes. This unit provides the theoretical and conceptual basis for examining and analysing the ethical issues involved in contemporary public and private organisations, and offers a critical analysis of current attempts at addressing these issues. Credit points: 12 Campus: External

JSN126 SECURITY RISK MANAGEMENT
In response to the war on terror government and private organisations are becoming more aware of the risk posed to key assets and critical infrastructure by terrorist and criminal enterprises. It is recognised that students should gain a working knowledge of security risk management methodologies and their application within the workplace. Credit points: 12 Campus: External
JSN128 ANTI-MONEY LAUNDERING
This Unit examines anti-money laundering measures in Australia and highlights the surveillance and monitoring of the banking and financial services sector along with other areas dealing with cash or financial transactions of interest. The student will gain an understanding of methodologies used by modern day investigators and financial analysts to obtain sources of information and financial intelligence to determine if someone is engaged in criminal activities.

The student will be able to examine the methodologies used by criminals who profit from their criminal activities, whether acting as an individual or as part of an organised group. Students will be able to explore the international standards and agreements of domestic and international laws.

It is recognised that the student should gain practical knowledge and obtain a greater understanding of the methods criminals use to conceal the money they have obtained through criminal activity.

Credit points: 12  Campus: External

JSN129 POLICING DIVERSITY
Are policing strategies developed for ‘mainstream’ Australia effective for Aboriginals, or refugees from East Africa? Are Australian police forces equipped to provide effective services to the range of diverse communities they police? What programmes and initiatives are police using in Australia and overseas, and are they working? These questions form the basis for a course in Policing Diversity. This unit takes up the challenge to critical analyse these questions and thereby offer students an advanced education about the issues related to policing increasingly diverse populations in modern, complex societies like Australia. The unit will focus on key issues such as policing new migrant and refugee communities, Lesbian, Gay, Bisexual and Transgender (LGBT) communities, police and Aboriginal peoples, critical analysis of contemporary Australian policies and programmes aimed at enhancing police effectiveness in responding to cultural and social difference.

Credit points: 12  Campus: External  Teaching period: 2011 SEM-2

JSN130 INDIGENOUS JUSTICE IN A GLOBAL CONTEXT
Why are indigenous peoples so over-represented in criminal justice systems around the world? Why have we been unsuccessful in reducing Indigenous rates of offending and imprisonment? How do Indigenous peoples theorise the causes of crime and respond to social harm? The unit will focus on the history of colonial responses to indigenous offending, the development of contemporary policy responses to this issue, the effectiveness (or otherwise) of state policies and interventions, and Indigenous theories of criminality and social harm.

Credit points: 12  Campus: External
