Overview
Interdisciplinarity is integral to the life of a creative professional. Increasingly, too, technology is central to your creative impulses, providing fresh ways of producing works, additional outlets for creative content, and opportunities to promote your skills, projects and performances.

The creative industries are continually evolving and, more and more, its practitioners are successfully creating their own opportunities rather than waiting for the right employment prospect to come along.

QUT’s unique Bachelor of Creative Industries (BCI) degree provides diverse knowledge, creativity and practical skills across a range of industries and practice to prepare you for a career as a creative professional.

Why choose this course
QUT is a global leader in the creative industries with an established reputation for research, industry links and creative practice innovation.

This course offers flexibility, giving you the option to choose a combination of study areas to suit your individual skills, creative interests and career aspirations.

While flexible, you will follow an established pathway through your creative industries units, which provide you with skills, knowledge and experience on which to build your creative career.

Design your own degree
Bachelor of Creative Industries core units (8 units)
PLUS
Creative Industries major (8 units)
PLUS
1 minor (4 units) + 4 Unit Options OR
2 minors (4 units each) OR
Second major (8 units)

Your BCI core units provide you with well developed communication and digital media skills, an up-to-date insight into the creative economy, and an appreciation of interdisciplinarity and creative collaboration.

Creative Industries Transitions units in your final year will prepare you for your creative career as an entrepreneur, consultant, project manager or employee, or give you the hunger for higher degree research.

The BCI core units provide a backbone for your creative discipline studies. You will choose a creative industries major, and from there you may select an additional major to develop a significant depth of knowledge in two chosen discipline areas; alternatively, you may develop a wider breadth of knowledge across three or more study areas, by choosing two minors or a minor and four Unit Options.

Creative Industries majors are available in the following areas: Animation; Art and Design History; Creative and Professional Writing; Dance Studies; Digital Media; Drama; Entertainment Industries; Fashion; Film, Television and Screen; Interactive and Visual Design; Journalism, Media and Communication; Literary Studies; and Music.

Second majors are available in the following areas: As per the above list of majors PLUS Advertising, Entrepreneurship, Game Design, Integrated Marketing Communication, Marketing, Mathematics, Online Environments, and Public Relations.

Other Course Options
This course is also available as part of the following double degree programs:
