Why choose this course?
Storytelling for screen is no longer restricted to big budget cinema releases and television series commissioned by major networks.

The need for quality content for subscription TV, mobile devices, Internet, promotional campaigns, film festivals and events is leading to lucrative opportunities for multi-skilled professionals to generate highly creative, captivating productions.

Career outcomes
Graduates work in the film, television and screen industries in entry level positions on film sets, for production companies, for screen media outlets and as freelance professionals. Those who specialise in producing may aspire to work in research, production management, script development and editing, or programming and scheduling for screen media outlets. Those who choose the craft specialisations can expect to pursue careers as cinematographers, vision and sound editors, directors or scriptwriters.

Many QUT graduates have successfully selfproduced their own creative work and secured screenings at major Australian and international film festivals such as the IF Awards, Tropfest, St Kilda Film Festival, Rhode Island Film Festival and DC Shorts. Others work on television programs such as Enough Rope, Toasted tv and Australian Story.

Practical teaching
This course provides flexibility and a broad range of practical industry skills, while encouraging you to hone your skills in producing, writing, editing, sound, cinematography or directing. You will learn craft skills used in audio visual media alongside a knowledge of how the entertainment industry works and business and leadership skills. Regardless of your chosen specialisation, this broad base of skills will make you attractive to employers, or alternatively set you up to better take control of your freelance career.

You will be industry ready, whichever role you choose to pursue. You will gain experience in your specialisation by working with other students to produce creative works for external clients, and may have your works showcased to the industry at public screenings in your final year.

There is an emphasis on creating quality content for a broad range of applications. You will choose from a range of genres, including documentary, drama, television formats and experimental film; and be encouraged to consider formats that include film, television, HD digital and mobile platforms.

Industry links
QUT Creative Industries is proud to have supported the Queensland New Filmmakers Awards for many years. QUT lecturer Helen Yeates initiated the awards to nurture up-and-coming talent in the local film scene.

Course structure
This course will allow you to explore a wide range of career options within the film, television and new media industries before specialising in an area of your choice. If your passion is cinematography, editing, sound or directing you will develop technical skills by producing high-quality creative content. If you are interested in producing, you will find your niche as a creative entrepreneur, learning how to generate ideas and develop them into finished productions through sourcing funding, personnel and distribution. Alternatively, you may hone your skills in scriptwriting.

Facilities and technology
You will work with industry standard equipment and learn techniques for digital and film outputs. Advanced classes...
are conducted in dedicated production studios, culminating in Super 16 film production. QUT was Australia's first official AVID partner, so our staff have up-to-date skills and knowledge of this leading-edge technology.
