Frequently asked questions
I am unable to attend any of the audition locations. Is it possible for me to submit a YouTube link/DVD of my work?

Yes, you can for the initial audition (only). If successful, you will be required to attend the recall dates in December. Please ensure your YouTube link/DVD reaches us by Friday 12 October 2012.

Information on where to send your YouTube link/DVD is part of the online registration procedure. When making your YouTube link/DVD, you should use the following format:
1. Include a brief description of who you are, where you are from and your expectations and goals for a career in acting any why you’re choosing QUT for your course of study.
2. Perform two contrasting monologues ensuring that one monologue is shot in medium close up and one is full body. Perform monologues that you can see yourself being cast for (be it theatre or film and television).

Are there any specific audition pieces for me to prepare?

Prepare two contrasting audition pieces no more than two and a half minutes long per piece

Download the Acting Audition Pieces (PDF file, 644KB). These pieces are not compulsory. If you decide to present pieces not on the list, please choose monologues not more than three minutes in length and ensure the two pieces you choose are contrasting.

When choosing material for your audition, pick two pieces that will make us listen and feel something for you:
- How does this piece affect you?
- What emotions does the character go through?
- What does your character want?
- What are the circumstances?
- What is the character doing physically?

Am I required to present Shakespeare as my second audition piece?

You can use Shakespeare as one of your pieces if you wish, however it isn’t mandatory.

In preparation for your audition
1. Know the lines well enough so that nervousness will not paralyse you. Understand that fear and nervousness is a part of the acting process. It is the adrenaline that allows you to show your best work.
2. We encourage you to make bold choices in your interpretation and in your performance.
3. Do not use audition pieces you have devised or written yourself as those auditioning you want to see how you apply your imagination to another writer’s words.
4. Do not use audition pieces extracted from poems or novels as they are mostly inherently undramatic.
5. Bring food and drink on the day
6. We encourage you to read Dean Carey’s book, The Actor’s Audition Manual, Currency Press. His advice on preparing and performing pieces is invaluable.

Do I have to audition in costume/make-up?

No, you don’t. Nor do you need to bring props. Instead, we suggest that you:
- Wear footwear and clothing that allow you to move and work easily
- Avoid wearing jewellery that could fall off, get tangled, or become lost or damaged
- Remove any tongue or facial piercing.

How do I know if I am required to attend a recall?

The process will be explained to you at the time of your first audition.

What are we looking for in an applicant?

In auditioning potential students, QUT looks especially for the following qualities:
- Serious commitment to an acting career in stage, film and television.
- A potential for vital, individualistic, trainable growth.
- Energy, openness of mind, enthusiasm, and a readiness to take risks.
- A body, voice and imaginative/emotional powers promising significant dramatic development.
- A potential for identification with the thought process of their text.
- A sense of humour, a sense of language, a sense of rhythm, and a capacity for sustained concentration.

Details:
This conservatoire-style acting course will educate, train and nurture your creative potential from a novice to a professional. It offers a rich program of study that fosters the development of bold, truthful, and passionate actors. The staff are committed to offering you a learning environment that challenges and inspires you to be an innovative and imaginative actor. You will graduate with an understanding of the profession, ready to identify your niche within it.

Why choose this course?

The QUT acting course is the only undergraduate degree in acting in Queensland and is designed for those who want to become professional actors. It is highly regarded in the profession for the readiness of its graduates to work across the media, and for the rigour and dedication of the teaching staff. We offer you a strong focus on acting for the screen as well as traditional actor training for the stage.

You will experience three years of intensive training and performing, and graduate as an employable stage and screen actor. Your screen work will include both studio and on-location shoots. QUT’s Gardens Theatre includes Acting’s five main stage productions in their professional subscription season. This means you will be working at a young professional level during year two and as an industry-ready graduate during your final year.

Our strong links with industry mean that you will graduate with networking skills and contacts. Public performance seasons in your second and third years will provide opportunities to work with professional directors and production designers. Your film shoots will be under the guidance of a professional film crew.

At the end of your final year, your stage and screen work will be showcased to industry in Brisbane and Sydney. Your showreel will be distributed nationally and internationally to directors and management agents.

Career outcomes

Graduates work as actors for stage, film and television both nationally and internationally. They have won leading roles in national and state theatre companies, television series, mini-series and feature films. For example, Gyton Grantley from Underbelly won both an Australian Film Institute Award and a Logie for Best Actor in 2009. Others such as Oliver Torr and Matt Zeremes successfully write and self produce their own work in film and in theatre.

Structures and Units

Your course

Year 1

The first-year acting studio is the basis for your future career. You will also study voice, singing, improvisation, Alexander, combat, and movement. You will learn the foundations of organic (or method) acting which is based on a fierce commitment to emotional honesty.

Year 2
This is your development year. You will continue to refine your talent through acting studio and rehearsals, and continue your studies in voice, movement and combat. Your acting studio work is designed to address the whole artist: to bring your voice, mind, body and emotions together through a range of role and performance opportunities. You will undertake film shoots, contemporary and classical stage productions, stand-up comedy, clowning and Shakespeare. You will study complementary areas through your electives, e.g. theatre and film history.

**Year 3**

This is your professional year which comprises performance for both stage and screen in a variety of venues. Typically, this includes a theatre season of three plays and two film shoots. Your professional development and readiness for the industry are anchored to the real world by your connection with professional directors and management agents. You will identify relevant issues relating to your planned career and learn how to position yourself effectively for entry into an international industry. QUT Acting Showcase (also known as Industry Day) in Brisbane and in Sydney will show your stage and film work to employers, management agents, casting agents and directors.

AMB202 INTEGRATED MARKETING COMMUNICATION
In past decades many organisations separated the different forms of marketing communication that convey their corporate and marketing messages. They developed separate plans for their advertising, public relations, direct marketing, personal selling and sales promotion with separate goals, objectives, strategies and budgets. Today many companies recognise the concept of integrated marketing communication which integrates these different functions along with other aspects of the marketing mix that communicate with stakeholders and customers. Integrated marketing communication requires a “total” approach to...
planning marketing communication programs and coordinating communication strategies in support of overall brand and product/service marketing objectives.

It uses developmental exercises to enhance student perceptions of the built environment in a problem based learning environment. Complex design problems deal with issues of social context, ethics, values, as well as the physical constraints of site, materials, climate, and technology. Design projects require the management of conflicting constraints to achieve optimal design proposals. Precedence, typologies, research and analysis, and representation techniques all form part of the unit content. Teaching and learning activities are spread across lectures,
tutorials, and studio based activities.
