Bachelor of Fine Arts (Music)

You’ll be creating new music from your first year. This is before choosing pathways, such as creative technologies, performing and recording new music, or composing for media. The course can lead you into music industry professions such as management or promotion, and social engagement.

Our music degree prepares aspiring musicians for the rapidly changing music industry. Students are encouraged to create works across musical boundaries and strike out in new directions.

In your final year you’ll work on transdisciplinary industry-connected projects with students from other study areas in the performing arts. You can also participate in music projects which focus on artist development and music-related research.

Why choose this course?
The music industry is riding a digital wave of change. These are exciting times for anyone who wants to strike out in new directions. And QUT’s music degree helps you to prepare for these evolving opportunities. This course offers an innovative learning environment that will help you develop your individual artistic identity and acquire the creative skills to realise your vision in the contemporary music scene.

A key element of the course is a series of regular workshops that address principles of performance, writing and arranging, production and the music industry. Experienced industry practitioners conduct many of these workshops.

You will experience both live and recording studio environments, and hone your skills in a professional setting. Our Skyline Studios are state-of-the-art. You will also learn how to use technology to create music, record and distribute your works, and market your talent. You will be inspired by collaborating with like-minded people on various projects while finding new ways to develop your own artistic vision.

We welcome applications from people of all backgrounds and creative styles via an audition.

Zoe Davis
Real graduate

‘I play in a band called Cub Sport. In 2013 we did two international tours. We’ve played major festivals including Laneway, Falls Festival and Splendour in the Grass, and are now working on our debut album. I chose QUT’s degree because it was the most contemporary, covering modern aspects of music including production.’
Real-world learning
You will experience both live and recording studio environments, whether your focus is as a performer or producer. You will learn how to use technology to create and record music, distribute your works, and market your talent.
