This program is ideal for clinicians interested in pursuing a management or executive career in health policy or health care.

The Master of Health Management develops students' knowledge across the broad scope of health. This course prepares graduates to provide leadership in a range of health services and programs. Students may choose to complete a specialisation in emergency and disaster management, health law, health policy and planning, quality and patient safety, or a cross-specialisation. Note, the specialisation is not part of the award title and does not appear on the graduation parchment.

**Entry requirements**

**Academic entry requirements**

Master of Health Management - 2 year program

A completed recognised bachelor degree (or higher) in any discipline.

Master of Health Management - 1.5 year program

A completed recognised bachelor degree in health, business or law.

Please note you do not need to apply for the 1.5 year program as you will be automatically assessed for eligibility as part of QUT's application for admission process.

**Course structure**

Students who have been awarded advanced standing and are undertaking the 1.5 year program are required to complete a total of 144 credit points for the award of the degree.

- You must complete six core units and one research methods unit.
- You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.
- If you wish to undertake a specialisation, then you will need to complete two core units from the specialisation and undertake your project or internship in that field.
- You may choose electives from across the program to complete your 144 credit points.

**Take your career to new heights**

‘After finishing medicine I decided to move into a career that would have an impact at the population level. QUT’s Master of Health Management demanded that we think about how theoretical concepts could be applied in the workplace. The exchange of ideas between researchers, practitioners and students working in different fields across the health sector was a transformative experience for me - one that I’m certain will bring positive impacts to my career.’

---

Master of Health Management

Students undertaking the 2 year program are required to complete 192 credit points of study.

- You must complete six core units and one research methods unit.
- You must also complete a 24 credit point research project, 24 credit point internship or 48 credit point dissertation.
- If you wish to undertake a specialisation, then you will need to complete at least two core units from the specialisation and either complete two other units from the choices available or undertake your project or internship in that field.

Students who wish to proceed to a research higher degree (e.g. PhD) should undertake a dissertation.
